KING CONTROLS
Jack Digital HDTV Antenna

$101.99

Upgrade to the latest antenna technology and get maximum reception of the new digital TV signals. The sleek, aerodynamic JACK antenna is fixed at 12" high eliminating the need to crank up or down and is always ready for travel. An amplified, ultra high gain antenna provides the best digital TV reception available for your RV with superior reception of both VHF and UHF signals and a much broader reception range. The built-in SureLock Digital TV Signal Finder let's you pinpoint the local TV towers before scanning for channels for simple, fool-proof antenna pointing. Full 360° rotation allows for precise antenna pointing with no "dead spot" commonly found with other antenna mounts. An LED light on the head confirms power to the built-in amplifier via the supplied wall mount power injector switch. At just 12"H x 16"W x 12.5"L, the JACK is up to 70% smaller than other antennas and provides superior reception of the new digital TV signals.

2-03706	12-706	Trailer End Plastic	Sale Price $2.49

HENG'S

Vortex Fan

$42.99

Update your old, inefficient powered vent easily without compromising the rooftop seal. Just replace your existing screen with the Vortex upgrade kit. Make your outdated vent more powerful without buying a whole new and expensive vent. Replacement is easy and only a Phillips screwdriver is needed. Tampering with the rooftop seal is NOT necessary. The Vortex vent works with Vent line, Jensen and Hengs powered U.S. vents. Non-powered vents can be converted with some additional wiring. Need a whole new vent? No problem! Just order a complete Vortex Vent(garnish not included).

Suburban Manufacturing Company

Pilot Ignition Water Heaters 4, 6 & 10

$228.99

Porcelain-lined, steel water heaters feature an anode rod to "absorb" the electrolytic action, ensuring that your entire water heater system lasts longer. With the fastest recovery in the industry of 10.2 gallons, six and ten gallon water heaters give you more hot water and fewer cool water cycles. Copolymer insulation jackets specially fit the tank to retain heat better than the "cardboard" style used on other brands. For higher recovery, use the gas and electric water heaters which use a 1,440 watt element to recover an additional 6 gallons per hour. Water heaters with a re-igniter eliminate the need to re-light the pilot and sound an alarm when the pilot is extinguished or the gas supply is turned off. Easy to install, operate and maintain. Access doors are sold separately. 1 per box.

5-79051 SW6P/5054A **Pilot 6-Gallon**

Atwood

DSI W/Combo Electric Board

$128.99

Circuit board with fuse. For Water Heaters That Use Combo/Electric Boards.

11-60129 13168 Water Valve Kit

HAYES NEW

G2 Brake Boss

$99.99

Introducing the new Hayes G2 trailer brake controller with an audible signal alert for connection continuity - a market-exclusive feature that makes for safer braking. The easy-to-find, easy-to-use manual emergency braking control lets you apply full power in emergency stopping situations. The three-axis accelerometer technology automatically levels and senses the rate of deceleration. The G2's large, high-resolution diagnostic liquid crystal panel is recessed to eliminate glare. This easy-to-read digital display indicates the amount of power being sent to the trailer brakes and allows adjustment in three modes (percent of power, voltage, and current). This advanced controller has a "power boost feature" which gives you the ability to apply more initial braking power when towing heavier trailers.

9-01792 81792BB G2 Brake Boss
